# CARE CATH Liv
# IC disposable catheter, hydrophilic, 17 cm, Nelaton

## IC disposable catheter

- ✔ Very good gliding properties thanks to hydrophilic coating.
- ✔ Ready for immediate use thanks to ready-to-use, hydrophilic coating.
- ✔ Atraumatic application due to rounded drainage eyes.
- ✔ Optimal length of 17 cm ensures complete bladder emptying.
- ✔ Non-contact application and good guideability due to the correct rigidity of the catheter.
- ✔ Good grip of the handle allows good handling, even with limited dexterity.
- ✔ Easy connection of urine collection bag and/or instillation solution via the handle cone.

Atraumatic,
rounded drainage eyes
